In compliance with the enclosed Legal Notice, you are hereby advised that I will make this survey on December 14, 1964, at 10:00 o'clock A.M.

If inclement weather prevents this action, on the above given date and time, I will set a future date for future action.

TO WHOM IT MAY CONCERN:*

I made survey in accordance with the above notice, and established 2 corners for the northeast corner of the Brummett Real Estate which is also the northwest corner of the Penrose Real Estate. Said points are 0.90 of a foot apart, due to the fact that there is 0.90 of a foot surplus ground between the east line of Walnut Street and the West Line of Lincoln Street. Therefore a measurement from the west, and a measurement from the east leaves a distance of 0.90 of a foot between the two parcels of real estate. I suggest a compromise.
